The conceptual explanation helped me throughout. Moreover, their weekly test schedule and intensive prelims routine helped me test my knowledge, identify my weaknesses, and improve my performance. It was a good experience at JKSC. The faculty was really supportive and helped solve doubts. The books were helpful and the test series also gave some excellent questions. I had taken the online batch for the full course commencing in April 2025. The teachers taught every concept properly and made sure that they focused on every doubt of both offline and online students.

The books had classwork, homework and past year questions and were genuinely enough to study the full course and get practice for the exams.

The test series comprised of weekly tests on every Sunday followed by a marking scheme within 24 hours and corrected answers within a few days which helped assess my preparation. They also gave links for homework solutions and past year solutions for self practice and also a Link to clarify doubts subject-wise.

Overall, the JKSC team helped a lot in in this journey to a successful CA Foundation result.
