CFA[®]

LEVEL 1 AUG 26

Clarity
Today.
Relevance
Tomorrow.

Prof. CA J.K. Shah | Founder, JKSC

Over four decades, I have seen finance transform in many ways. Markets have evolved, technology has advanced, and opportunities have grown beyond what we once imagined. Yet one thing remains constant - the value of sound financial understanding.

Today, many students feel the pressure to move quickly and achieve early. While that drive is important, it is equally important to pause and ask: What kind of professional do you want to become?

The CFA® Institute (CFA®) program is a disciplined journey that teaches you how to think - to evaluate businesses, understand risk, and make decisions with clarity.

Careers built on strong fundamentals endure. Roles may change, but clear thinking and integrity remain timeless.

Three thoughts to carry forward:

- Build depth, not just speed
- Question before you conclude
- Strive to be reliable in your thinking

If you invest yourself in CFA®, it will shape not just your perspective, but your career.

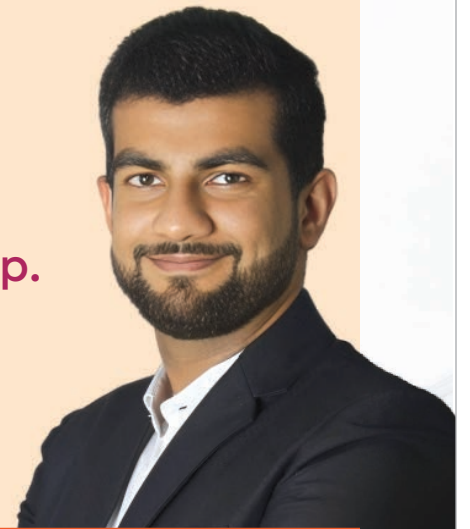

Completed
CA?
Now take your
career to the
next level

CFA[®]

To achieve great
things, you must
first be able to
dream them,
and then plan
them step by step.

Prof. Mihir Dedhiya
Division Head: CFA[®]

The CFA[®] coaching division in JKSC is spearheaded by Prof. Mihir Dedhiya, a CA by profession, with an AIR 38th at CA Final and a CFA[®] charterholder as well.

Mihir's experience would prove to be invaluable to the aspiring students. Having been a JKSC alumni himself, his goal is to deliver the best education which JKSC is known for. After clearing CA Final, he ventured into the finance industry.

Mihir has 2 years of industry experience post qualification wherein he has worked in diverse fields like project finance, derivatives structuring and fixed income markets. His passion for finance and teaching led him to pursue the field of coaching. His practical experience across the various fields would be highly beneficial to the aspirants.

Apart from finance, Mihir has a keen interest in economics and geopolitics and he likes to read geopolitical and finance books in his free time. He has written several informative posts on LinkedIn and made YouTube videos surrounding these topics as he believes knowledge enhances when shared.

Course offered by The CFA Institute, USA.

**Comprehensive
course covering all
aspects of finance**

**Holistic approach
to finance**

**Course enjoys wide
global recognition in
162 countries**

**Close to 25,000+ firms
worldwide employ CFA®
charter-holders.**

As global markets become increasingly integrated and seamless, foreign qualifications which enjoy global recognition are fast becoming essential to secure exciting career prospects. In this scenario, CFA® fits in the bill perfectly.

Changes in global financial markets

The financial markets across the world witnessed a massive paradigm shift in recent years. The global central banks of various countries opened the liquidity taps and the money found its way towards the financial markets all across the world, keeping finance professionals on their toes.

As the world progresses and new developments unfold, the role of finance professionals will prove to be indispensable. CFA® offers aspirants the relevant skills they need, to maximise the opportunities that the evolving markets present. And JKSC, with decades of expertise in training students for top rung positions in business and finance is perfectly poised to help you upskill yourself and achieve your global career dreams.

Investment in knowledge pays the best interest.

All we ask for is your dedication and time investment. Our returns to you in the form of interest will be immense knowledge, continued support and guidance, rest assured!

What you will learn

Ethical & Professional Standards

This subject focuses on professional ethics a CFA® is bound to comply with and has a significant weightage in the exam.

Financial Reporting & Analysis

How to read & analyse corporate financial statements forms a major chunk of this subject.

Alternative Investments

Learn about investments in oil, real estate and other complex instruments.

Fixed Income

Learn about the not so explored field of debt investments, fixed income instruments valuation and the dynamics of fixed income markets.

Corporate Finance

Focuses more from a company perspective. What measures a company needs to take to ensure that its financial health remains optimum and its cost of financing remains the least.

Equity Investments

How to identify stocks. For eg, based on various tools, whether a stock is undervalued and hence a good buy? Overvalued and hence a good sell? Or properly valued.

Portfolio Management

Focuses on benefits of diversification. how to effectively manage one's portfolio as a whole; comprising of stocks, bonds, gold, real estate, etc.

Derivatives

Derivatives are financial instruments used to safeguard existing investments.

Quantitative Methods

Teaches various statistical and quantitative methods to evaluate investment options and draw conclusions about the results obtained.

Economics

As the markets to a large extent are driven by various economic factors, this subject covers both micro and macro economics.

Student speak

CFA level 3 Candidate
Pratyush Rajgor

CFA at JKSC has truly been a wonderful experience. Attending the lectures, whether online or offline was never boring. The syllabus, including revision lectures, was meticulously planned allowing me to allocate 2.5 months to self-study prior to my exam day. The summary notes provided by JKSC are exhaustive and extremely useful to revise the numerous chapters in a short span of time. Mihir sir has always been a guiding light whenever I faced any difficulties during my preparations.

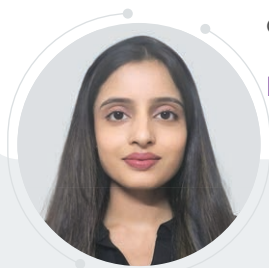

Throughout with JKSC, My experience with JK Shah Classes across all three CFA levels was genuinely enriching. The clarity and practicality with which concepts were explained made even the most challenging topics easier to grasp.

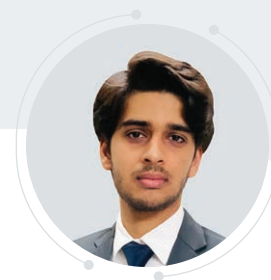

The practice questions and test series closely mirrored the CFA curriculum, providing the right level of preparation and confidence before each exam.

What stood out was how interactive and engaging the classes were. The learning environment encouraged questions, incorporated real-world examples, and maintained a strong focus on understanding rather than just completion. It wasn't just about covering the syllabus it was about learning it the right way.

JK Shah Classes' CFA vertical offers a well-rounded, student-centric approach that helps aspirants stay consistent, motivated, and fully prepared at every stage of the CFA journey.

Cleared all 3 levels of CFA
Priyal Lotiya

CFA level 3 Candidate
Ekarth Patel

My journey here was exciting. The study material provided is really helpful and regular practice test can really help you stay confident with your preparation. Having an Engineering background, I never felt that I was not on the same page as others. Professors help you clear the concepts at the same time. Apart from the curriculum, other general knowledge and market discussions are also shared with active involvement from the students.

I recommend JK Shah to all students pursuing CFA

Cleared all 3 levels of CFA
Karan Jakharia

Clearing all three levels of the CFA program wouldn't have been possible without the unwavering support and guidance from the CFA vertical at JK Shah Classes.

Their structured teaching methodology, comprehensive test series, and strong focus on conceptual clarity created the perfect foundation for success. What truly sets them apart is their prompt and effective doubt-solving mechanism be it during concept-building sessions or high-pressure revision phases. The learning environment is built to keep students engaged, confident, and consistently progressing through each level of the program.

The CFA program at JK Shah Classes goes beyond textbook learning. It equips aspirants with a profound understanding of the curriculum while nurturing a results-driven mindset crucial for tackling one of the toughest finance qualifications. For anyone looking to pursue the CFA designation, JK Shah Classes is more than just a coaching institute; it's a partner in your journey to becoming a finance.

All Students have done all 3 levels of CFA with JKSC

Special sessions for Std. XII Students

First Step towards Understanding finance

- Special Sessions for students who have recently appeared for Std. XII boards.
- Finance, as a field is completely new for them and attending CFA lectures directly might seem challenging at first.
- The special sessions are designed to clear their basics and introduce them to finance.
- Some examples of what kind of topics will be taught in the special sessions:
 - a) Time Value of Money: Compounding and Discounting: The heart of finance
 - b) What are the key components of financial statements?
 - c) All about the various asset classes
 - d) How do economies function? A primer on central banks
 - e) Basic Mathematics: So important yet so ignored
 - f) What is finance industry and what do finance professionals really do?
 - g) Detailed discussion on subjects involved and how to register for the CFA program exams
- The above list is illustrative and not exhaustive.

Class Schedule

Batch	Days	Time	Start date	All Batches streamed Online Live as well
Batch 1 Andheri Ghatkopar	Once a week	3:00pm to 8:00pm 30 mins. break in between	9th July 25	

Please note: ● The batch timings & days may vary. ● The lectures would be conducted on Tuesdays.

Once special sessions are over, then main CFA Level I program lectures will start. Students can select any batch of their choice.

New offerings

Financial Modelling training

JKSC will be offering complimentary financial modelling course to its students to equip them with hands on skills required for finance jobs.

Brief on financial modelling

Financial modelling is an exercise whereby an analyst forecasts the financial statements of the company in question for the purpose of his/her analysis. This exercise is typically done on Microsoft excel spreadsheets.

When will JKSC offer financial modelling training?

Once the candidate has appeared for the exam and awaiting results.

Why it is ideal for those who have appeared for CFA level 1 exams?

In CFA level 1 preparation, a candidate would be, among other things, learning the subjects of Equity and Financial Statement Analysis in depth thereby equipping the candidate with the much needed knowledge to start financial modeling.

Note: Students will have to carry their own laptops for financial modelling training with excel Installed in it.

The key components for financial modelling

Revenue

Expenses

Net Income (Loss)

Cash Flow

Balance Sheet

Soft skills training

Just knowing financial concepts isn't enough, that's why JKSC is going the extra mile to provide its students with complimentary soft skills training.

Brief on soft skills

It is extremely essential that any professional is able to present and communicate things in a clear and concise manner for which soft skills come into play.

Benefits of soft skills training

Enhanced confidence, Networking with peers, Better thought process and clarity, Ability to think on your feet, Ability to do public speaking.

When will JKSC provide soft skills training?

Once the candidate has appeared for the exam and awaiting results. At JKSC, we believe that while preparing for the exam, the focus should be completely on exams. These additional skills, therefore, are planned after the exams so as to effectively utilise your time until results.
