J.K. Shah Classes helped me to not only prepare but plan my study so well that I enjoy my study of CMA Course. Sometimes, it becomes little difficult to handle; obviously as it is a Professional course, it will be tough. But all professors here are very friendly and they constantly guide us.

Best part is that J.K. Shah Classes has the best study environment and dedicated batches of CMA Course. Before joining this institute, I was told that there they would be many students in one batch, and that I would not get personal attention.

Trust me, the management ensures it is beyond personal attention! All faculties are very reachable and ready to solve all doubts. My gratitude to J.K. Shah Classes for teaching us CMA Course so well! And ensuring our success at the exams.

I've been a student at JKSC since Foundation, and it gave me the right start. The teachers are very experienced and supportive. They guided us while also reminding us that smart work and self-study are essential.

My advice to CMA aspirants:

- Your degree is worth the sacrifices, but it's not the final destination.
- Develop your soft skills this helps during job placements.
- There will be times when pressure feels too much—stay strong, stay focussed.
- Take breaks, relax, and bounce back stronger. Some of my best memories are the daily class chatter, break sessions, and the healthy competition when someone answered a concept I didn't know—it always pushed me to do better. JKSC gave me memories and motivation I'll always cherish.

I'm deeply thankful to the JKSC faculty, my parents, and my sister for supporting me on this journey. Seeing my name on the rank list felt surreal. From the very beginning, JKSC teachers have guided us with dedication. Their teaching style makes you fall in love with the subjects, and they are always ready to clear doubts.

My daily routine included 8 hours of classes at JKSC, 4 hours of self-study, and closer to the exam, the Score Up Batch truly made a difference. My advice to CMA aspirants: Stay consistent, Trust your mentors, Believe in yourself and God's plan.

There were obstacles along the way, but with the support of my family and teachers and my own perseverance I overcame them. JKSC created an environment where many students, including me, could grow and succeed.

Joining JK Shah Classes was one of the best decisions of my CMA journey. Right from the start, the faculty was honest about the level of dedication required. The lectures were engaging and never felt overwhelming. What stood out was the teachers' focus on conceptual clarity they explained topics patiently until everything made sense. There was no rote learning. Weekly tests helped me track my progress and made the syllabus easier to manage. The Score Up Batch was a turning point. It provided a solid, well-structured revision and boosted my confidence before the exams.

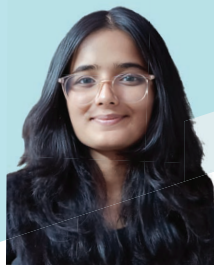

JKSC was more than just a coaching class for me—it was a support system that helped me grow, stay focused, and succeed.

I first learned about the CMA Course through a seminar in 12th grade and decided to pursue it. I completed all three levels – Foundation, Intermediate, and Final – at J.K. Shah Classes. Balancing college studies with CMA preparation was challenging, but the professors at J.K. Shah Classes provided invaluable support and guidance, helping me excel at all levels. Today, I stand proud I have secured a managerial position at ITC Company through the CMA Institute Placement with an incredible compensation package. The aspirations I harboured in 12th grade have become a reality. And I am immensely grateful to J.K. Shah Classes and their team for playing a pivotal role in my success.

My entire CMA journey, from Foundation to Final, was with JK Shah Classes, and they supported me every step of the way. The faculty made even the most difficult subjects easy to understand by starting from the basics and building up to advanced concepts. Their exam-oriented teaching style and clear explanations really helped me grasp the subjects and enjoy learning. The Score Up Batch and last-minute revisions were especially helpful during my Inter exams. Everything was taught with the exam in mind, which made preparation much easier.

My advice to future CMA aspirants: ● Choose your internship wisely—it plays a big role during campus placements. ● Give at least 5 months for exam preparation. ● Self-study is the key to success.
